SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

[X] QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE  
ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2008

Commission file number 333-150419

TAMANDARE EXPLORATIONS INC.  
(Exact name of registrant as specified in its charter)

NEVADA  
(State or other jurisdiction of incorporation or organization)

Seefeldstrasse 69  
Zurich 8008 Switzerland  
(Address of principal executive offices, including zip code.)

(800)880-6416 & 011-41-44-274-28-28  
(telephone number, including area code)

Resident Agents of Nevada  
711 S. Cason Street, Suite 4  
Carson City, NV 89701  
Telephone (775) 882-4641 Facsimile (775) 882-6818  
(Name, address and telephone number of agent for service)

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the last 90 days. YES [ ] NO [X]

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," "non-accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer [ ] Accelerated filer [ ]  
Non-accelerated filer [ ] Smaller reporting company [X]

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES [X] NO [ ]

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: 3,000,000 shares as of August 12, 2008.

TAMANDARE EXPLORATIONS INC.  
(An Exploration Stage Company)  
Notes to Financial Statements

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Tamandare Explorations, Inc., have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Tamandare Explorations, Inc.'s report filed with the SEC on Form S-1. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for fiscal 2007 as reported in the form S-1 have been omitted.

NOTE 2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies Tamandare will continue to realize its assets and discharge its

liabilities in the normal course of business. Tamandare has never generated revenues since inception and is unlikely to generate earnings in the immediate or foreseeable future. The continuation of Tamandare as a going concern is dependent upon the continued financial support from its shareholders, the ability of Tamandare to obtain necessary equity financing to continue operations, and the attainment of profitable operations. As of June 30, 2008, Tamandare has accumulated losses of \$15,291 since inception. These factors raise substantial doubt regarding Tamandare's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should Tamandare be unable to continue as a going concern.

#### NOTE 3. ACCOUNTS PAYABLE

In May 2008, Tamandare received completed subscription agreements in its "all or nothing" offering. The subscription agreements were for 1,050,000 shares of its common stock at \$.02 per share, or \$21,000 cash. As the offering is "all or nothing", the funds are recorded as a liability until such time as the offering is completed and in the event the offering is not completed the funds will be returned to the investors.

5

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This section of this report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of our report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions. We are an exploration stage company and have not yet generated or realized any revenues.

#### BUSINESS

We are an exploration stage company with no revenues and a limited operating history. Our independent auditor has issued an opinion which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

We currently have one property which we plan on exploring for silver and other minerals, known as the Que 1-4 Mineral Claims, comprised of 4 contiguous claims totaling 82.64 acres. The beneficial owner of the mineral claims is Tamandare Explorations Inc., and the claims are in good standing until September 1, 2008.

The Que 1-4 property lies in the west central area of the State of Nevada southwest of the Town of Tonopah and is accessible from Highway 95 by traveling south of the Town for 22 miles to the Silver Peak cut-off that is taken to the west for 27 miles to the Paymaster Canyon cut-off that is taken to the north for 5 miles to the property. The area experiences about 4" - 8" of precipitation annually of which about 20% may occur as a snow equivalent. The claim area ranges in elevation from 4,450' - 4,620' mean sea level. The physiography of the Que property is low sloping terrain to the west and the east within the confinement of the south end of the Paymaster Canyon. Much of this general area with many broad open valleys and spiny mountain ridges hosts sagebrush and other desert plants on the low hill slopes.

We have not carried out any exploration work on the claims and have incurred no exploration costs. The future cost of exploration work on the property is disclosed in detail in the Plan of Operation section of this report.

There is not a plant or any equipment currently located on the property. It is expected that the initial exploration phase will be supported by generators. The Town of Tonopah offers much of the necessary infrastructure required to base and carry-out an exploration program (accommodations, communications, equipment and supplies). Larger or specialized equipment can likely be acquired in the City of Las Vegas lying 209 miles by paved road (Highway 95) to the south.

6

A three-phase exploration program to evaluate the area is considered appropriate

and is recommended by our consulting geologist. Detailed prospecting, mapping and reconnaissance MMI soil geochemical surveys of the claim area are recommended.

The cost of the proposed program is \$8,500 for the initial phase of exploration work, \$9,500 for the contingent second phase and \$25,000 for the third phase. We plan to commence Phase 1 of the exploration program in the third quarter of 2008 if we are able to raise the necessary funds from our proposed offering.

#### PLAN OF OPERATION

Our plan of operation for the twelve months is to complete our offering of 2,500,000 shares of common stock registered pursuant to our Form S-1 registration statement to raise \$50,000 to pay for the costs of the three phases of the exploration program. In addition to the \$43,000 we anticipate spending for the exploration program as outlined below, we anticipate spending an additional \$12,000 on professional fees, including fees payable in connection with complying with reporting obligations, and general administrative costs. Total expenditures over the next 12 months are therefore expected to be approximately \$55,000, which is the amount to be raised in our offering and our cash on hand. We will require the funds from our offering to proceed.

The following work program has been recommended by the consulting geologist who prepared the geology report.

#### PHASE 1

Detailed prospecting, mapping and soil geochemistry.  
The estimated cost for this program is all inclusive \$ 8,500

#### PHASE 2

Magnetometer and VLF electromagnetic, grid controlled surveys over the areas of interest determined by the Phase 1 survey. Included in this estimated cost is transportation, accommodation, board, grid installation, two geophysical surveys, maps and report 9,500

#### PHASE 3

Induced polarization survey over grid controlled anomalous area of interest outlined by Phase 1&2 fieldwork. Hoe or bulldozer trenching, mapping and sampling of bedrock anomalies. Includes assays, detailed maps and reports 25,000

Total \$43,000  
=====

Each phase following phase 1 is contingent upon favorable results from the previous phase.

7

If we are successful in raising the funds from our offering we plan to commence Phase 1 of the exploration program on the claims in the third quarter of 2008. We expect this phase to take 14 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

The above program costs are management's estimates based upon the recommendations of the professional consulting geologist's report and the actual project costs may exceed our estimates. To date, we have not commenced exploration.

Following phase one of the exploration program, if it proves successful in identifying mineral deposits, we intend to proceed with phase two of our exploration program. The estimated cost of this program is \$9,500 and will take approximately 14 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

Following phase two of the exploration program, if it proves successful, we

intend to proceed with phase three of our exploration program. The estimated cost of this program is \$25,000 and will take approximately 25 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

We anticipate commencing the second phase of our exploration program in fourth quarter 2008 and phase 3 in first quarter 2009. We have a verbal agreement with James McLeod, the consulting geologist who prepared the geology report on our claims, to retain his services for our planned exploration program. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work after the exploration program if we find mineralization.

#### RESULTS OF OPERATIONS

We are still in our exploration stage and have generated no revenues to date.

We incurred operating expenses of \$5,289 for the three months ended June 30, 2008. These expenses consisted of general operating expenses and professional fees incurred in connection with the day to day operation of our business. Our net loss from inception through June 30, 2008 was \$15,291. We were incorporated on November 16, 2007 so there are no comparative figures for the previous year.

Cash provided by financing activities for the period from inception (November 16, 2007) through June, 30, 2008 was \$36,000, of which \$15,000 was from the sale of 3,000,000 shares of common stock to a director of the company for \$0.005 per share and \$21,000 represents stock subscriptions received from an "all or nothing" offering.

#### LIQUIDITY AND CAPITAL RESOURCES

Our cash balance at June 30, 2008 was \$21,256 including \$21,000 in stock subscriptions received pursuant to our current offering, with \$22,200 in outstanding liabilities. The offering is on an all-or-nothing basis. If all the shares are not sold and the total offering amount is not deposited by the expiration date of the offering (October 14, 2008), the funds will be promptly

8

returned to the investors, without interest or deduction. In order to achieve our exploration program goals, we need to complete our offering of registered shares pursuant to our registration statement on Form S-1 filed with the SEC under file number 333-150419 which became effective on April 18, 2008. We are an exploration stage company and have generated no revenue to date.

#### ITEM 4. CONTROLS AND PROCEDURES

##### (a) Evaluation of disclosure controls and procedures.

The Company's Chief Executive Officer and Principal Accounting Officer participated in an evaluation by management of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of March 31, 2008. Based on their participation in that evaluation, the Company's Chief Executive Officer and Principal Accounting Officer concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2008 to ensure that required information is disclosed on a timely basis in its reports filed or furnished under the Exchange Act.

We recognize the importance of internal controls. As we are currently an exploration stage company with limited ongoing financial operations, management is making an effort to mitigate this material weakness to the fullest extent possible. At present this is done by having the Chief Executive Officer review our financial statements, account reconciliations and accounts payable reports that have been prepared by financial consultant for reasonableness. All unexpected results are investigated. At any time, if it appears that any control can be implemented to continue to mitigate such weakness, it will be immediately implemented. As we grow in size and as our finances allow, management will hire sufficient accounting staff and implement appropriate procedures for monitoring and review of work performed by our financial consultant.

##### (b) Changes in internal control over financial reporting.

There was no change in the Company's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during

the fiscal quarter ended March 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Tamandare Explorations Inc.

/s/ Roger Gebert

-----  
By: Roger Gebert  
President, Chief Executive Officer,  
Chief Financial Officer,  
Principal Accounting Officer & Director

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT

I, Roger Gebert, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Tamandare Explorations Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

IN WITNESS WHEREOF, the undersigned has executed this certification as of the  
12th day of August, 2008.

/s/ Roger Gebert
