TAMANDARE EXPLORATIONS INC.
(An Exploration Stage Company)
Notes to Financial Statements

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Tamandare Explorations Inc., have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Tamandare's Form 10-K filed with SEC. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for fiscal 2008 as reported in the Form 10-K have been omitted.

NOTE 2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies Tamandare will continue to realize its assets and discharge its liabilities in the normal course of business. Tamandare has not generated revenues since inception and its ability to generate future earnings is dependent upon the discovery of commercially viable mineral reserves. The continuation of Tamandare as a going concern is dependent upon the continued financial support from its shareholders, the ability of Tamandare to obtain necessary equity financing to continue operations, and the attainment of profitable operations although managements assessment is that it has sufficient cash on hand to implement its planned exploration activities for the next twelve months. As of June 30, 2009, Tamandare has accumulated losses of \$46,862 since inception. These factors raise substantial doubt regarding Tamandare's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should Tamandare be unable to continue as a going concern.

NOTE 3. STOCK SUBSCRIPTIONS RECEIVED

Tamandare received a \$3,000 duplicate payment from one of its investors as of December 31, 2008. The funds had been returned as of March 31, 2009.

5

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This section of this report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of our report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions. We are an exploration stage company and have not yet generated or realized any revenues.

BUSINESS

We are an exploration stage company with no revenues and a limited operating history. Our independent auditor has issued an opinion which includes a statement expressing substantial doubt as to our ability to continue as a going concern.

We currently have one property which we plan on exploring for silver and other minerals, known as the Que 1-4 Mineral Claims, comprised of 4 contiguous claims totaling 82.64 acres. The beneficial owner of the mineral claims is Tamandare Explorations Inc., and the claims are in good standing until September 1, 2009.

The Que 1-4 property lies in the west central area of the State of Nevada southwest of the Town of Tonopah and is accessible from Highway 95 by traveling

south of the Town for 22 miles to the Silver Peak cut-off that is taken to the west for 27 miles to the Paymaster Canyon cut-off that is taken to the north for 5 miles to the property. The area experiences about 4" - 8" of precipitation annually of which about 20% may occur as a snow equivalent. The claim area ranges in elevation from 4,450' - 4,620' mean sea level. The physiography of the Que property is low sloping terrain to the west and the east within the confinement of the south end of the Paymaster Canyon. Much of this general area with many broad open valleys and spiny mountain ridges hosts sagebrush and other desert plants on the low hill slopes.

Our mineral claims have been staked and we hired a professional mining engineer to prepare a geological report. The first phase of the exploration program was completed in December 2008 the geologist suggested further fill-in MMI sampling to try and establish a more exact pattern for the anomalies, this work was completed in April 2009 and we received his report on May 16, 2009. Management is currently reviewing his recommendations for further exploration. Our property (the Que 1-4 Mineral Claims) may not contain any reserves and funds that we spend on exploration will be lost. Even if we complete our current exploration program and are successful in identifying a mineral deposit we will be required to expend substantial funds to bring our claims to production.

There is not a plant or any equipment currently located on the property. It is expected that the initial exploration phase will be supported by generators. The Town of Tonopah offers much of the necessary infrastructure required to base and

6

carry-out an exploration program (accommodations, communications, equipment and supplies). Larger or specialized equipment can likely be acquired in the City of Las Vegas lying 209 miles by paved road (Highway 95) to the south.

A three-phase exploration program to evaluate the area is considered appropriate and is recommended by our consulting geologist. Detailed prospecting, mapping and reconnaissance MMI soil geochemical surveys of the claim area are recommended.

PLAN OF OPERATION

If we decide to proceed with further exploration, our plan of operation for the next twelve months is to complete phase 2 of our exploration program. In addition to the remaining \$9,500 we would spend for phase 2 of the exploration program as outlined below, we anticipate spending an additional \$8,000 on professional fees, including fees payable in connection with complying with reporting obligations, and general administrative costs. Total expenditures over the next 12 months are therefore expected to be approximately \$17,500.

The following work program has been recommended by the consulting geologist who prepared the geology report.

PHASE 1

Detailed prospecting, mapping and soil geochemistry.
The estimated cost for this program is all inclusive \$ 8,500 (completed)

PHASE 1A

Follow up fill-in MMI sampling to try and establish a more exact pattern for the anomalies identified in Phase 1. \$ 9,500 (fieldwork completed)

PHASE 2

Magnetometer and VLF electromagnetic, grid controlled surveys over the areas of interest determined by the Phase 1 survey. Included in this estimated cost is transportation, accommodation, board, grid installation, two geophysical surveys, maps and report \$ 9,500

PHASE 3

Induced polarization survey over grid controlled anomalous area of interest outlined by Phase 1&2 fieldwork. Hoe or bulldozer trenching, mapping and sampling of bedrock anomalies. Includes assays, detailed maps and reports \$25,000

Total \$52,500
=====

7

Each phase following phase 1 is contingent upon favorable results from the previous phase.

The first phase of the exploration program was completed in December 2008 the geologist suggested further fill-in MMI sampling to try and establish a more exact pattern for the anomalies. Phase 1A was completed in April 2009 and we received his report on May 16, 2009. Management is currently reviewing his recommendations for further exploration.

The above program costs are management's estimates based upon the

recommendations of the professional consulting geologist's report and the actual project costs may exceed our estimates.

Following our review of the results of phase 1A we may decide to proceed with phase 2 of our exploration program. The estimated cost of this program is \$9,500 and would take approximately 14 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

Following phase 2 of the exploration program, if it proves successful, and we are able to raise the necessary funding, we intend to proceed with phase 3 of our exploration program. The estimated cost of this program is \$25,000 and will take approximately 25 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

If we decide to proceed further we anticipate commencing the second phase of our exploration program in third quarter 2009 and phase 3 in first quarter 2010. We have a verbal agreement with James McLeod, the consulting geologist who prepared the geology report on our claims, to retain his services for our planned exploration program. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work after the exploration program if we find mineralization.

RESULTS OF OPERATIONS

We are still in our exploration stage and have generated no revenues to date.

We incurred operating expenses of \$13,908 and \$5,289 for the three months ended June 30, 2009 and 2008, respectively. These expenses consisted of general operating expenses and professional fees incurred in connection with the day to day operation of our business and exploration costs. Our net loss from inception through June 30, 2009 was \$46,862.

Cash provided by financing activities for the period from inception (November 16, 2007) through June 30, 2009 was \$65,000, of which \$15,000 was from the sale of 3,000,000 shares of common stock to a director of the company for \$0.005 per share and \$50,000 represents stock subscriptions received from an "all or nothing" offering which was completed on October 8, 2008.

8

LIQUIDITY AND CAPITAL RESOURCES

Our cash balance at June 30, 2009 was \$17,487 with no outstanding liabilities. Management believes our current cash balance will sustain operations for the next twelve months. We are an exploration stage company and have generated no revenue to date.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

The Company's Chief Executive Officer and Principal Accounting Officer participated in an evaluation by management of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of March 31, 2009. Based on their participation in that evaluation, the Company's Chief Executive Officer and Principal Accounting Officer concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2009 to ensure that required information is disclosed on a timely basis in its reports filed or furnished under the Exchange Act.

We recognize the importance of internal controls. As we are currently an exploration stage company with limited ongoing financial operations, management is making an effort to mitigate this material weakness to the fullest extent possible. At present this is done by having the Chief Executive Officer review our financial statements, account reconciliations and accounts payable reports that have been prepared by financial consultant for reasonableness. All unexpected results are investigated. At any time, if it appears that any control can be implemented to continue to mitigate such weakness, it will be immediately implemented. As we grow in size and as our finances allow, management will hire sufficient accounting staff and implement appropriate procedures for monitoring and review of work performed by our financial consultant.

(b) Changes in internal control over financial reporting.

There was no change in the Company's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the fiscal quarter ended June 30, 2009 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

July 29, 2009

Tamandare Explorations Inc.

/s/ Roger Gebert

By: Roger Gebert
President, Chief Executive Officer,
Chief Financial Officer,
Principal Accounting Officer & Director

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT

I, Roger Gebert, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Tamandare Explorations Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

IN WITNESS WHEREOF, the undersigned has executed this certification as of the
29th day of July, 2009.

/s/ Roger Gebert

Chief Executive Officer

CERTIFICATION OF CHIEF FINANCIAL OFFICER PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT

I, Roger Gebert, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Tamandare Explorations Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

IN WITNESS WHEREOF, the undersigned has executed this certification as of the
29th day of July, 2009.
